

## SYMPOL SYSTEM

### "BLUE ICE" PAD GIVES BEST RESULT

SYMPOL is proving to be a real winner in retail floor care, in terms of both the high standard of appearance achieved with the floor and the dramatic reduction in overall labour and material costs.

Replacing the conventional detergent in the autoscrubber for the daily clean, SYMPOL builds a tough, glossy and clear film of sealer on the floor all the while maintaining it in clean condition. The need for re-coating with sealer is significantly reduced, as is any need for hard cut-backs or stripping.

The best results with SYMPOL are achieved by buffing regularly with a propane buffer using Glomesh 'Blue Ice' pads. Because SYMPOL resists scuffing and marking, there are less of these to remove during the buffing process. So we can afford to use a softer pad like Blue Ice that will allow the film to last longer while still achieving a very high gloss level.

For those not already familiar with the SYMPOL System, and would like to implement a more cost effective floor maintenance system please call you Agar representative or Agar office in your state.

IF YOU WOULD LIKE TO PURCHASE SOME BLUE ICE FLOOR PADS WE CAN ASSIST YOU THERE, TOO!

#### DISPENSER BOTTLES

### DID YOU KNOW?

Our range of screen-printed dispenser bottles has continued to grow and we now have an even wider selection available. All bottles are printed with the appropriate colour, number code, usage directions, first aid advice and dilution rates. No longer do you need to tolerate adhesive labels falling off bottles, or not being used in the first place!

We not only have 500ml bottles available for all our colour coded range but we also have;

#### 500ml Spray Bottles for:

- Citrastar
- Sanitiser
- Methylated Spirits
- Grill Clean
- Spray Buff C

#### 1L Squirt Bottles for:

- Fast Glass
- Lemon
- Novadet
- Solspray
- Lift
- Magic
- pH-7
- Venue

A full list of our screen-printed dispenser bottles is on the enclosed order form.

## PRODUCT FOCUS

*A couple of products you may find useful...*

### GALLEY 2

**Available in 5kg & 10kg**

GALLEY 2 is a high-performance powder detergent for manually dosed dishwashing machines. Ideal for kitchens in restaurants, hotels, commercial office buildings, canteens or use at home.

It's a chlorinated powder that dissolves easily and releases powerful cleaning agents to remove all food residues without harming surfaces.

GALLEY 2 cleans dishes and leaves them sparkling and streak-free, hygienically sanitised and odour-free.

It is important to follow safety warnings. Store in a cool place. Always keep containers closed and out of reach of children. Galley 2 is **NOT** for hand dishwashing.

#### Main Benefits

- Fully biodegradable
- Dissolves readily
- Gives sparkling, hygienically clean dishes and glasses

### COUNTRY GARDEN

**Available in 1L**

Super-strong perfume concentrate designed to provide a lasting fragrance in areas where normal detergent and disinfectant perfumes disappear sooner than desired. It has a pleasing floral fragrance which lingers for many hours, even days.

Primarily for toilet cubicles & washrooms, COUNTRY GARDEN may also be used in waste and garbage holding areas to mask undesirable odours. COUNTRY GARDEN may even be used after cleaning to let your customers know you've been and left it clean and fresh.

#### Main Benefits

- Perfume concentrate
- It will outlast conventional reodorant detergents
- Provides a solution to both highly-ventilated and poorly-ventilated problem washrooms where a lingering perfume is required

### FLOPREP

**FORMULA ADJUSTED TO REDUCE FOAM**

FLOPREP is now being made to a new formula which offers the same excellent cleaning and cutting-back performance as the old version, but is much lower foaming.

This new formula does still foam up in use, but it breaks down more quickly now. After 5 minutes it will have less than half the foam height of the old formula, with both used at 1 part in 20 parts water.

FLOPREP is ideal for removing polish topcoats and dirt from floors prior to re-coating. It leaves a smooth, clean base for new coats to go over.
